REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School District of New Boston:

I hereby submit my annual report as Superintendent of Schools.

The current school year opened with three changes in our teaching staff. Miss Doris Stiller, Keene '46, replaced Miss Helen Burnham, who resigned to be married, as teacher of Home Economics. Miss Ruth Merrill, Plymouth '46, was secured to take the place of Miss Elizabeth Hoyt. Both of these teachers have made a fine contribution to the high school program.

Mrs. Grace Rainey was employed as teacher of Grades 4-6, Mrs. Hayes having transferred to Dunbarton. Mrs. Rainey's experience has likewise been valuable to the work of the school.

Our outstanding problem occurred in the primary room. Shortly after the opening of school 49 youngsters were enrolled in this room, ten more than were anticipated prior to the start of the school year. Obviously relief for Mrs. Gutterson was imperative. With no other available space to set up an additional room, it seemed best to employ a helping teacher. Miss Elsie Seed of Salem, N. H., has served in that capacity and has been of considerable help in providing more adequate instruction for the primary group.

The problem facing us another year is even more acute. Approximately 14 pupils will be promoted in June to the next room, while a survey of pre-school children indicates that 20 will be entering. This further complicates our problem, and the facts of the case make it imperative that a solution be found before next September.

Several solutions have been suggested. The Town Hall has been proposed as a site for a classroom. That space, however, is not satisfactory for many reasons. With the hall in constant use it would mean that the classroom equipment would be disturbed at repeated intervals. The toilet facilities could not be shared by school pupils and the general public.

Although the two-teacher system as in use this year is not ideal, it has been reasonably satisfactory. It may be the answer to our problem.

Regardless of the plan followed, an additional teacher is necessary. It is unfortunate that a room can not be found for her, for that arrangement would allow for but two grades per room rather than three as at present.

The problem is a serious one, and requires the combined efforts of all of us to solve. It is not only an immediate problem, but a problem demanding a definite plan for the years ahead. With constantly increasing costs, primarily due to increased teachers' salaries, one can not without profound study adopt the future pathway for our schools.

As I mentioned in my report of a year ago, the costs of education are rising rapidly, and with an inadequate supply of teachers available for the next five to eight years, it is a question as to how long the town can maintain the present arrangement. It is certain that New Boston must face the construction of a school building in the immediate future if we are to maintain a twelve-grade program. As I stated above, there is insufficient room on the lower floor for the ninety or more youngsters expected next fall, and there is no possibility of moving any of those children to the second floor. The high school as is has not sufficient room to carry on its program.

The School Board estimate for next year calls for a considerable increase, necessitated by increased costs of transportation, books and supplies, and teachers' salaries. Be-

ginning teachers next fall will receive more than we are now paying experienced teachers, both elementary and secondary. If communities such as New Boston are interested in maintaining the quality of their schools, they must meet the salaries paid in towns of the area. Otherwise we will either have no teachers or teachers not qualified to give our pupils an education to which they are entitled. The problem is one for the citizens of New Boston to solve. In the opinion of the School Board and Superintendent, the budget proposed is the minimum amount necessary to maintain our schools at the present level. The schools can not be conducted on the present 12-grade level at any lesser figure.

To solve our problem of overcrowded conditions and increased costs, one of three solutions are apparent,—(1) to continue the present arrangement and meet the increasing costs, (2) to construct a two or four room elementary building, or (3) transfer the education of certain pupils to surrounding towns. The solution of the problem is the definite responsibility of every parent and citizen of New Boston.

Respectfully submitted,

LEWIS F. FOOTE,
Superintendent of Schools.

February 6, 1947.

REPORT OF SCHOOL NURSE

The school nurse submits the following report for the school year September, 1945 through December, 1946.

About one hundred and fifty pupils were weighed, measured and examined by Dr. Fraser in September, the beginning of the school year. The following figures show the number of children affected at that time:

Defective vision 10. Number of defects corrected 7.
Defective teeth 100. Number of defects corrected 40.
Diseased tonsils 3. Number of defects corrected 0.
There were ten measle cases in August, 1946.
There were two orthopedic cases, both were operated on.
There was one fractured wrist, and one fractured collar bone.

A toxoid clinic was held December 5, 1945. Thirty-one school children and thirty pre-school children received the treatment.

At the baby clinic in May, 1946, nine school children had their second treatment.

A Patch test was given March 14, 1946 to one hundred and five pupils and four teachers. This test is given for the purpose of finding children who may be presenting early symptoms and signs of tuberculosis. Should there be a positive reaction to the test, it should be followed by a chest X-ray in order that prompt treatment may be properly prescribed. At the time of this test, three children had a positive reaction and they were later X-rayed at Dr. Kerr's Tubercular Clinic in Manchester, and their reports read negative to tuberculosis. We are to give another Patch test the first of February to those who did not take it last year.

EDITH G. WALKER,

School Nurse.
